

Aldrich FT-IR Collection Edition I Library

Library Listing – 10,505 spectra

This library is the original FT-IR spectral collection from Aldrich. It includes a wide variety of pure chemical compounds found in the *Aldrich Handbook of Fine Chemicals*.

The Aldrich Collection of FT-IR Spectra Edition I library contains spectra of 10,505 pure compounds and is a subset of the Aldrich Collection of FT-IR Spectra Edition II library. All spectra were acquired by Sigma-Aldrich Co. and were processed by Thermo Fisher Scientific. Eight smaller Aldrich Material Specific Sub-Libraries are also available.
